

TIMOTHY KIMANI

FULL STACK ENGINEER

Software Engineer | Backend Engineer | Financial Systems Developer

kimanitimothy642@gmail.com | github.com/Timothy970 | linkedin.com/in/timothy-kimani-9966841a2 | timothy970.github.io/portfolio

PROFESSIONAL SUMMARY

Full Stack Engineer focused on designing, developing, and supporting secure web, mobile, and backend applications in the financial technology sector. Experienced in building high-performance systems for payment processing, cross-border money transfers, messaging platforms, and third-party integrations using Go, PHP, JavaScript, and modern frontend frameworks. Skilled in RESTful APIs, SQL databases, Docker, Kubernetes, Linux, and Agile software development. Passionate about delivering scalable, secure, and maintainable solutions while collaborating with cross-functional teams throughout the software development lifecycle.

EXPERIENCE

Roamtech Limited Solutions — Software Engineer

Feb 2024 – Aug 2026

Develop and maintain scalable web, backend, and mobile applications across multiple enterprise products, contributing throughout the software development lifecycle from design and implementation to deployment and production support. Collaborate with cross-functional teams to deliver secure, reliable, and high-performance software solutions.

Afrisend — Cross-Border Money Transfer Platform

Technologies: Go, PHP, Vue.js, React Native, MySQL, Redis, Docker, Kubernetes, Helm

- Developed secure backend services supporting local and international money transfers.
- Designed and implemented RESTful APIs consumed by web and mobile applications.
- Integrated banking systems, mobile money providers, payment gateways, and foreign exchange partners using REST and SOAP services.
- Built transaction validation, automated reconciliation, and retry mechanisms to improve payment reliability.
- Investigated and resolved production incidents while maintaining high system availability.
- Optimized SQL queries and backend workflows for high-volume transaction processing.
- Collaborated with QA teams during SIT/UAT and participated in production deployments.
- Worked within Agile development teams using Git, Docker, and Kubernetes.

Emalify — Business Communications Platform

Technologies: PHP, Vue.js, MySQL

- Designed and implemented RESTful APIs and backend services for SMS delivery and messaging workflows.
- Developed reusable backend components and frontend modules, including template management and reporting features.
- Participated in requirement analysis, testing, and production support.
- Collaborated with cross-functional teams to continuously deliver new functionality.

Adenzo — E-commerce Platform

Technologies: Go (Golang), Next.js, MySQL

- Developed scalable backend services using Go.
- Built REST APIs consumed by web applications.
- Implemented secure authentication, session handling, and business logic.
- Developed responsive frontend functionality using Next.js.
- Performed code reviews, testing, and production deployments.
- Worked in an Agile software development environment.

SKILLS & COMPETENCIES

Languages: Go (Golang) • PHP (Laravel) • JavaScript • TypeScript • SQL • HTML/CSS

Backend & Financial Systems: REST & SOAP APIs • Microservices • Express.js • Node.js • Secure API Development • Payment Integrations • Third-party Integrations • Spring Boot (Basic)

Frontend: React • Vue.js • Next.js • Nuxt.js • React Native • Responsive UI

Databases: MySQL • Redis • MongoDB • SQL Database Design • Query & Performance Optimization

Cloud & DevOps: Docker • Kubernetes • Helm • Linux • Git • GitHub Actions

Development Practices: Agile/Scrum • SDLC • Unit Testing • Production Support • API Security • Debugging • Code Reviews

SELECTED PROJECTS

BloodHero — Blood Donation & SOS Emergency Network

A real-time blood donation and SOS emergency network that connects potential blood donors and recipients instantly, coordinates emergency SOS broadcasts, and tracks donor schedules and points.

Technologies: Next.js, React, TypeScript, Tailwind CSS, Supabase

Live Demo: <https://blood-heroes-six.vercel.app/dashboard> **Source:** <https://github.com/Timothy970/blood-donation-system>

APK: <https://github.com/Timothy970/blood-donation-system/releases/download/v1.0.0/bloodhero.apk>

AgroMarket — Agricultural Marketplace

A digital marketplace connecting local farmers directly with consumers, enabling direct produce purchases, flexible payment options, and fast delivery scheduling to support local agriculture.

Technologies: React, TypeScript, Tailwind CSS, Node.js, Express, MongoDB

Live Demo: <https://agromarket-5c9k.onrender.com/> **Source:** <https://github.com/Timothy970/AgroMarket>

Job Tracker — Application Tracking Dashboard

A full-stack MERN application for tracking job applications, featuring an interactive dashboard with search filters, application status statistics, user profile management with image uploads, and visual charts of application trends.

Technologies: React, Node.js, Express, MongoDB, Styled Components, Recharts

Live Demo: <https://job-tracker-nu-ivory.vercel.app/> **Source:** <https://github.com/Timothy970/Job-Tracker>

MovieRecs — Movie Recommendation Platform

A movie recommendation and browsing platform featuring popular movies, search and filter functionality, responsive grid views, and pagination.

Technologies: React, Next.js, TypeScript, Tailwind CSS

Live Demo: <https://movie-app-khaki-seven-17.vercel.app/> **Source:** <https://github.com/Timothy970/movie-app>

CERTIFICATIONS & CONTINUING EDUCATION

React Native – The Practical Guide

Udemy (Maximilian Schwarzmüller / Academind) — June 2025

React Native • Cross-Platform Mobile • iOS & Android Development

Verify: <https://www.udemy.com/certificate/UC-75982a33-d8ce-4ba8-9093-50e8c53d5588/>

MERN 2025 Edition – MongoDB, Express, React and Node.js

Udemy (Jānis Smilga) — August 2025

MongoDB • Express.js • React • Node.js • Full-Stack Web

Verify: <https://www.udemy.com/certificate/UC-2081a59f-0db1-4db3-9bc8-45d45f82792f/>

EDUCATION

Bachelor of Science in Information Technology

Kenyatta University — Upper Second Class Honours (Division)
